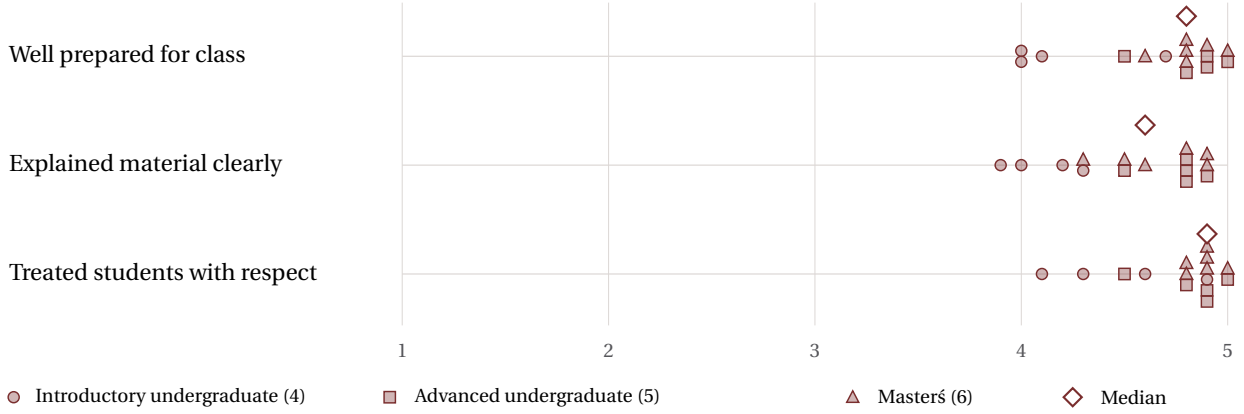
Student responses	**Evaluated sections**	**Undergraduate sections**	**Master's sections**
33.5% of 391 enrolled	Five economics courses	Introductory and advanced	Quantitative and macro

Courses: Principles of Economics II · International Finance · Growth Theory · Quantitative Methods · Applied Macroeconomics

Student ratings of instruction

University-reported "Your Median" (1–5). Each point is one evaluated section; a hollow diamond marks the median across sections.



Scale: 1 = Strongly Disagree; 2 = Disagree; 3 = Neutral; 4 = Agree; 5 = Strongly Agree. N/A excluded.

Selected student comments

Overall impact

"This was the most helpful discussion section I have had at this university."

International Finance – Winter 2025 – PDF p. 11

Clarity and intellectual curiosity

"Brian was extremely helpful in explaining things in the clearest way possible. He also went above and beyond when answering my questions and offered things to look into outside of the material taught in class that might interest me."

Principles of Economics II – Winter 2023 – PDF p. 34

Preparation and accessibility

"His discussion sections were very well done and helped with understanding the materials. Brian was eager to support students and was easily available for office hours and course help."

Growth Theory – Winter 2026 – PDF p. 2

Connecting economic ideas

"I really appreciated how he would include and explain economic connections between our current material and material that we would encounter in the future if we pursued an Economics major."

Principles of Economics II – Winter 2023 – PDF p. 34

Complementing lectures

"Brian is a very helpful GSI and explains the course material very well. His sections or discussions complement the lectures very well."

Applied Macroeconomics – Winter 2024 – PDF p. 25

Support and academic mentoring

"Brian is always willing to help students with coursework and academic issues, prepared for sessions and open to discussion."

Quantitative Methods – Fall 2023 – PDF p. 31

Source and methodology. University of Michigan instructor reports, Fall 2022–Winter 2026. 15 sections (131 responses from 391 enrolled students). Each small point shows the university-reported median for an instructor-specific question; the diamond shows the unweighted median of these 15 section medians. Six comments are contiguous verbatim excerpts, traceable by PDF page. Course-level scores are not attributed solely to the GSI.
